Israeli Raids in Occupied West Bank

A series of intensive Israeli military operations swept across the occupied West Bank overnight and into Thursday morning, marked by arrests, home demolitions, and raids, while Israel's government indicated that the Rafah crossing will remain closed.

West Bank Raids

Israeli occupation forces launched multiple incursions across the West Bank, resulting in arrests and damage to property:

Jenin: Occupation forces stormed the eastern district of Jenin city, arresting three young men.
