Israeli occupation forces launched widespread attacks on displaced Palestinians across Gaza on Saturday, leaving scores dead. At the same time, three of the few hospitals still operating in the Strip were forced out of service.

While commemorating the first anniversary of the passing of two of its most prominent leaders, Sayyed Hassan Nasrallah and Sayyed Hashem Safi al-Din, Sheikh Qassem emphasized that while Hezbollah remains committed to national unity, this unity must be focused on shared defense against the external enemy.

Since October 7, 2023, Israel has killed 65,926 and injured 167,783 others, the majority of whom are women and children, according to the Palestinian Ministry of Health in Gaza.
