Israel renewed its attacks on Gaza, killing several Palestinians and citing alleged Hamas ceasefire violations, despite mediators confirming the delays in body recoveries are due to the devastation caused by Israel's own bombings.

The renewed Israeli aggression followed threats against the Palestinian Resistance movement Hamas by Israeli Defense Minister Israel Katz, who warned of a "high price" for an alleged attack targeting Israeli soldiers in Gaza.

Since October 7, 2023, Israel has killed 68,527 and injured 170,395 others, the majority of whom are women and children, according to the Palestinian Ministry of Health in Gaza.
