Hamas confirmed on Saturday the assassination of senior leader Raed Saad, as Israeli ceasefire violations continued across the Gaza Strip.

The announcement came amid ongoing airstrikes and artillery shelling in multiple areas, raising further doubts about the durability of the ceasefire.

Since October 7, 2023, Israel has killed 70,663 and injured 171,139 others, the majority of whom are women and children, according to the Palestinian Ministry of Health in Gaza.
