*A mixed feeling of disappointment and excitement resulted from the International Court of Justice's ruling on the ongoing Israeli war on Gaza.*

*Either way, the ruling did not seem to alter anything on the ground, as Israel's ongoing war on the Palestinian people continued unabated as well as the continued American support of Israel.*

*Meanwhile, Palestinian and Arab Resistance, however, escalated their attacks on the Israeli army on several fronts.*

*According to Gaza's Ministry of Health, 26,257 Palestinians have been killed, and 64,797 wounded in Israel's ongoing genocide in Gaza starting on October 7. Palestinian and international estimates say that the majority of those killed and wounded are women and children.*
