The Israeli army threatened on Friday to launch an unprecedented bombardment of Gaza, amid a continued exodus of Palestinians from Gaza City to the center and south of the enclave.

Meanwhile, the Al-Qassam Brigades released footage of an IED ambush in northern Gaza and warned that Israel's Gaza City offensive would face a prolonged war of attrition, with threats of more casualties and no prisoners spared.

Since October 7, 2023, Israel has killed 65,208 and injured 166,271 others, the majority of whom are women and children, according to the Palestinian Ministry of Health in Gaza.
